

GLOBAL STUDENTS SDG CHALLENGE

Programme - January 24-29, 2022

Overall Aim:

This is the 6th event of the Global Students SDG Challenge. The goal of the event is to encourage students to approach the Sustainable Development Goals (SDGs) in a multidisciplinary and innovative perspective focusing on how to achieve the goals in accordance with different areas and cases. The students will cooperate across different disciplines, through different cultures and practice how to pitch their ideas to a panel of professors, students, and government entities. The students will leave the event with elaborated project proposals for their semester, as well as a plan for the collaborations between students from different universities.

DAY 1 - January 24: Auditorium of the Faculty of Technology, University of Brasília

13:00-13:45: Transport to Faculty of Technology
